SECTION 1 - DEFINITION OF TERMS

Company - SYNIVERSE TECHNOLOGIES, INC. unless otherwise clearly indicated by the context.

Customer or End User - The person, firm, corporation, or other entity that connects two locations with dedicated transport or private line services, subject to the terms and conditions of the Company's contract.

Dedicated - A facility or equipment system or subsystem set aside for the sole use of a specific customer.

DS-0 - Single circuit, private line dedicated point-to-point circuit service for data transport speeds of 56 Kbps or 64 Kbps

DS-1 - Also commonly referred to as T1 service, for data transport speeds of 1.544 Mbps with to provide full-duplex digital transmission over a private line for high-capacity data transport and network infrastructure. Contains 24 DS-0 channels.

DS-3 - Also referred to as T45 service, for data speeds of 45 Mbps to provide, as with DS-1, full-duplex digital transmission over a private line for high-capacity data transport and network infrastructure

OC- (X) - Variable combination of DS-3 circuits or higher bandwidth circuits for very high-speed data transmission.

Carrier - Underlying carrier providing private line or dedicated data transport services.

Private Line - Transmission of dedicated electrical or optical signals over a line to a destination.

PSC - Kentucky Public Service Commission

SYNIVERSE - Used throughout this tariff to mean SYNIVERSE TECHNOLOGIES, INC. unless clearly indicated otherwise by the text.

Turned Up - Provisioned circuit that is available for use.

2.0 TERMS AND CONDITIONS

2.0.1 SYNIVERSE will resell state-of-the-art private line transport to support internal or external business applications. Such systems include point-to-point or multi-point service with data speeds adaptable to meet customer needs. SYNIVERSE offers private line or "point-to-point" circuits in the following configurations:

- DS-0 (single circuit) private line dedicated point-to-point circuit service for data transport speeds of 56 Kbps or 64 Kbps
- DS-1 (T1) services for data transport speeds of 1.544 Mbps with to provide full-duplex digital transmission over a private line for high-capacity data transport and network infrastructure
- DS-3 (T45) for data transport speeds of 45 Mbps to provide, as with DS-1, full-duplex digital transmission over a private line for high-capacity data transport and network infrastructure
- OC-(X), which variably combines DS-3 or larger bandwidth circuits for very high-speed data transport services.

SECTION 2 - TERMS AND CONDITION (CONT'D)

2.1 NEGOTIATED PRICING

2.1.1 Private line services and pricing is obtained on an individual case basis (ICB) and is initiated upon requests from customers. Payment for services shall be governed by applicable SYNIVERSE negotiated contract price in effect at the time service is provided. SYNIVERSE reserves the right to make changes to our prices. Such changes shall become effective at the time the changes are made to the price by SYNIVERSE. The Company requires a negotiated contract with customers to provision resold private line services, and the quoted ICB prices may vary based on customer location in the Commonwealth of Kentucky. An ICB must be provided under contract to a customer and the contract will be provided to the Commission. All ICB prices are provided on a non-discriminatory basis. SYNIVERSE manages its own billing system.

2.1.2 Pricing and service guarantees are negotiated and supplied to the customer in accordance with agreements negotiated with Carriers. In addition, Carriers must provide terms consistent with the pertinent laws and regulations, including the following:

- Tariff rates of the underlying carrier providing the circuit
- AT&T Communications Tariffs FCC No. 9 and No. 11
- AT&T Contract Tariffs No. 3 and 151
- MCI WorldCom Tariffs FCC No. 1 and No. 8
- The MCI WorldCom Special Customer Arrangement between MCI WorldCom and SYNIVERSE
- Sprint Tariffs FCC No. 7 and No. 8
- Sprint Bulk Service Arrangement between Sprint and SYNIVERSE
- Qwest Tariffs FCC No. 1 section 7.10 Private Line Transport Services

SECTION 3 - PRODUCT DESCRIPTION AND RATES**3.0 RESOLD PRIVATE LINE SERVICES**

SYNIVERSE resells state-of-the-art private line transport services to support internal or external business applications. Such systems include point-to-point or multi-point service with data transport speeds adaptable to meet customer needs. SYNIVERSE resells private line or "point-to-point" circuits in the following configurations:

DS-0 (single circuit) private line dedicated point-to-point circuit service for data transport speeds of 56 Kbps or 64 Kbps

DS-1 (T1) services for data transport speeds of 1.544 Mbps with to provide full-duplex digital transmission over a private line for high-capacity data transport and network infrastructure

DS-3 (T45) for data transport speeds of 45 Mbps to provide, as with DS-1, full-duplex digital transmission over a private line for high-capacity data transport and network infrastructure

OC-(X), which variably combines DS-3 or larger bandwidth circuits for very high-speed data transport services.

3.1 INDIVIDUAL CASE BASIS (ICB) ARRANGEMENTS

SYNIVERSE negotiates prices for Private Line Services on an Individual Case Basis **(ICB)**. Private Line services will be made available to customers in a non-discriminatory manner. Rates for interexchange and local exchange dedicated access, private line, and non-switched services will be determined on an Individual Case Basis (ICB). ICB rates and contracts will be structured to recover the Company's cost of providing the services and will be made available to the PSC. ICB rates will not be used for switched services. The Company requires a negotiated contract with customers to provision resold private line services, and the quoted ICB prices may vary based on customer location.

SECTION 3 - PRODUCT DESCRIPTION AND RATES

3.1 INDIVIDUAL CASE BASIS (ICB) ARRANGEMENTS (Cont'd)

within the Commonwealth of Kentucky. An ICB must be provided under contract to a customer and the contract will be provided to the Commission. All ICB prices are provided on a non-discriminatory basis.

Pricing and service guarantees are supplied to the customer in accordance with agreements or contracts negotiated with underlying carriers along with the pertinent regulations of the underlying carrier, including the following:

- Tariff rates of the underlying carrier providing the circuit
- AT&T Communications Tariffs
- The MCI WorldCom Special Customer Arrangement between MCI WorldCom and SYNIVERSE
- Sprint Bulk Service Arrangement between Sprint and SYNIVERSE
- Qwest Tariffs FCC No. 1 section 7.10 Private Line Transport Services

Mileage and service type will also be included to determine price. A circuit price will be negotiated with our customers prior to ordering any service. An executed nondisclosure agreement (NDA) must be in place before SYNIVERSE can provide circuit pricing. Billing starts on the date the circuit is in service or "turned-up."

3.1.1 Copies of contracts between SYNIVERSE and Customers will be filed with the PSC.
